Large-scale evacuation from Libya

Feb 2011: Anti-government protests erupt in Libya

Violence, conflict, and chaos is spreading across this North African country, sparking concerns for the safety of FCM clients and their employees. An evacuation plan is needed. Here steps in the crisis management team at FCM Malta and FCM Libya, who played a crucial role in liaising with industry suppliers, authorities and government to safely transport employees out of affected regions. The numbers give an indication of the scale. 10,000 people, 280 pets and hundreds of thousands of dollars' worth of personal items. It is the strength of FCM's global network, operational capabilities and evacuation experience that secured around-the-clock travel support and guidance throughout.
